⁺ - Façade measurement.

^{1.} As the sewage sampling was tested positive for COVID-19 near the noise monitoring location at 19 Hing Yan Street (E-N12a). Therefore, the impact noise monitoring at this location was provisionally suspended for 14 days (From 27 January 2021 to 9 February 2021) and resumed on 11 February 2021.

^{# -} A correction of +3dB(A) was made to the free field measurement.

^{* -} Limit Level of 70dB(A) applies to education institutes while 65dB(A) applies during school examination
